INTERPRETATION OF THE WEST CHESTER UNIVERSITY (WCU) STUDENT-TEACHER SUPERVISOR ASSESSMENT FORM RESULTS

The WCU Student-Teacher Supervisor Assessment Form consists of 14 items rated on a five-point scale and 4 items rated on a dichotomous (yes/no) scale. Using individual items for assessment purposes is not a valid use of this instrument. Also, note that the number of students who responded is small. Therefore, the results should be interpreted with caution.

It is important that individual instructors also look at their results over several semesters and not base interpretations on any given semester.

The responses to the question "Observed me the required number of times as indicated by my program" is dependent on when the assessment form is administered. This form should be administered towards the end of the semester to ensure the validity and reliability of the instrument.
